

**Accepting
support doesn't
take your
independence
away**

Most older Australians want to stay in their own home as they age.

78 TO

81%

want to continue living at home for as long as possible

Source: Australian Housing and Urban Research Institute (AHURI), Melbourne

Even when support is needed,
home is still where most
people want to be.

80%

want to receive support
where they currently live

62%

would prefer that care
in their own home

Source: Royal Commission into
Aged Care Quality and Safety

Home is more than just a place.

It can bring comfort, familiarity
and a sense of control that
supports overall wellbeing.

That's why quality care
should always be

intentional + compassionate

It can help you maintain your
independence, keep your routine
and **move through each day with
more confidence.**

Your needs, preferences and goals may evolve over time.

That's why the right care starts with people who understand you and respond to your changing needs.

Leora.

Support that grows with you.
