

Do you have patients who need help:

- Connecting with support workers?
- Finding allied health professionals?
- Applying for aged care funding?

Let's work together.

Who We Are

Leora Healthcare is a trusted provider of disability, aged care and mental health services.

Founded in 2008 (as Afea Care Services), Leora is a registered service provider of the NDIS, My Aged Care Support at Home and icare (Lifetime Care, Workers Care and Dust Diseases Care).

Through our expansive network of support workers, Care Partners and Clinical Care Partners, we provide exceptional care to thousands of families every week. Our diverse team speaks over 50 languages, which mirrors the culturally rich communities we serve.

More and more older Australians are choosing to stay at home rather than go into residential aged care. We deliver personalised support to help older people embrace their independence, working closely with them to design a care plan tailored especially for their unique needs.

Supporting your Smooth Transition

People come to Leora Healthcare for compassionate services such as

- In-home care after leaving the hospital
- In-home care for older people (over 65)
- Assistance for people living with disability
- In-home care following an illness or surgery (restorative care)
- In-home care for people nearing the end of life

Our clinical team can provide high or complex care support such as

- PEG feeding and management
- Enteral feeding and management
- Ventilator management
- Subcutaneous injection
- Complex wound management
- Tracheostomy management
- Severe dysphagia management
- Urinary catheter management
- Complex bowel care

Real reviews, real clients

Excellent ★★★★★ Trustpilot

Why Leora?

Leora.

Multidisciplinary experience

Our team collectively has decades of experience providing care, working with clinicians and allied health providers such as occupational therapists, speech pathologists and behaviour support practitioners.

Complex care expertise

We understand the complexities that come with higher-level care needs due to age-related conditions such as dementia, Parkinson's disease, stroke recovery, frailty or chronic health issues. Our support workers receive this specialist training from registered nurses.

Rigorous risk management process

Each client undergoes a thorough assessment by a Clinical Care Partner prior to onboarding. Risk is assessed annually, unless required sooner. We have a Clinical, Risk and Governance Department ensuring the safety of our clients and the compliance of our staff with best practice care services.

Easy referral process

We will contact your referral the same day we receive their details. Simply give us a call on 1300 65 11 33 or fill out our form by scanning the QR code below. Low care clients can receive services within 24-48 hours.

Safety and wellbeing come first

Beyond meeting the best practices set by the Aged Care Commission, Leora is committed to providing older Australians the safest, most reliable care every day.

Discovery Session with Leora

We're happy to host a complimentary discovery session where we can meet with you and your team.

Please call 1300 65 11 33 or send an email to hello@leorahealth.com.au to request a session.
