

Support at Home Self-Management

More choice over your services.
Clearer visibility over your budget.
Support behind you when you need it.

Leora.

A more flexible way to manage your care at home

There’s a difference between being given a schedule and shaping one that works for you. With Leora, self-management gives you more say over who supports you, when services happen and how care fits into your everyday life. You make the choices, we help make them work.

The Leora self-management app

Designed with you in mind, so you can see what’s happening across your services, budget and care.

See your care at a glance

View upcoming services, scheduled visits and key care details in one place.

Keep important details together

Store key care information, preferences and documents in one secure place.

Keep closer to your budget

Track invoices, services and remaining funds with clearer visibility.

Stay connected

Access updates and communicate with your Leora team more easily.

Important Reminder

While the app gives you a more convenient way to access and manage your supports, services and care details, #TeamLeora is still here for check-ins, conversations and face-to-face support when you need it.

Frequently Asked Questions

How does self-management work?

Self-management gives you more choice over who supports you, when services happen and how your care is arranged.

Leora remains your registered Support at Home provider, helping with care management, budgeting, compliance and service coordination.

What makes Leora's self-management support different?

You get flexibility without being left to figure it out alone.

Leora can help with provider checks, invoice processing, budget updates, care planning and clear communication, so you can make choices with confidence.

Can I choose my own Support Workers or providers?

Yes. You can choose your own workers or providers, as long as they meet Support at Home requirements and the services are included in your care plan.

This may include Support Workers, cleaners, gardeners, allied health professionals and other approved services.

Can I use more than one provider?

Yes. You can receive services from different approved providers. Leora remains your main registered provider and helps oversee your care management, budget and compliance requirements.

Can I keep someone I already trust?

In many cases, yes. If you already have a worker or provider you trust, Leora can review their details and complete the required checks before they are onboarded.

What fees apply?

Care management is included under Support at Home. If you use external providers, a third-party invoice processing fee may apply.

We will explain all fees clearly before you begin.

Do I need to pay providers upfront?

No. Approved providers can invoice Leora directly, so you do not need to pay upfront and wait for reimbursement.

Can I see how my budget is being used?

Yes. Leora can provide updates on your budget, invoices and remaining funds.

Soon, our self-management app will make this even easier by giving clients clearer visibility in one place.

Can gardening, lawn mowing or dog walking be included?

These may be included if they relate to your assessed care needs and are part of your care plan.

General pet costs such as food, vet bills, grooming or everyday pet expenses are not covered.

Can Leora help me change providers?

Yes. If you are thinking about switching providers, Leora can explain the process, help you prepare the right information and support a smoother transition.
